

## My occupational health insurance (OHI)

### My Alternative Medicine Practitioner module

In addition to conventional medicine, various forms of treatment and therapy that take a more holistic approach have become increasingly established. Alternative medicine practitioners now offer naturopathic, traditional and homeopathic procedures. However, statutory health insurance (SHI) generally does not cover these costs. Your employer now also makes alternative medicine a real financial alternative for you with the Alternative Medicine Practitioner plan.

Well-covered all round – these are the **benefits** provided by your OHI

**Alternative medicine practitioner**

**Medicines**

70% reimbursement for alternative medicine practitioner treatments including prescribed medicines (up to EUR 400 per insurance year)

Alternative medicine practitioner treatments include both conventional treatments by alternative medicine practitioners and chiropractic or osteopathic therapies by alternative medicine practitioners.

Wolfgang M. suffers from severe back pain. Because conventional medicine has not yet been able to help him, he is turning to an alternative medicine practitioner for acupuncture treatment. **His health insurance fund does not contribute to the costs of EUR 305.**

**Allianz covers 70 percent of the costs = EUR 213.50.**
