Find your personal protection

What is important to you personally?

AktiMed WechselOption offers maximum flexibility: Increase your insurance coverage without risk assessment – three times and up to your 50th birthday.

Vorsorgekomponente V reduces your contributions in old age by up to 80%: Optimal healthcare – for a lifetime.

Sportbaustein allows additional benefits for your sporty lifestyle, such as training-specific preventative diagnostics.

Examples

ALTERNATIVE TREATMENTS

Katharina (32) has recently been experiencing annoying headaches. Instead of constantly using painkillers, she tries acupuncture with her family doctor. This works and Katharina will soon be pain-free once again.

We understand your desire for alternative treatments. That's why we support you in finding the best treatment and cover the costs.

HOSPITAL STAY

Mattheo (29) suffered a complicated cruciate ligament tear while jogging. He wanted to have the necessary surgery carried out by the chief physician, an expert in the field. Afterwards, Mattheo recovered in a quiet single room.

We enable optimal therapy and cover up to 100% of the costs.

DENTURES

Sven (36) needs a molar pulled. To close the resulting gap, the dentist advises an implant with a crown. This will relieve strain on the teeth and naturally restore his chewing function.

Beautiful teeth mean quality of life. We cover 75-100% of the costs for your dentist visit.
