# THAT'S HOW AN OCCUPATIONAL PENSION PLAN IMPLEMENTED VIA DIRECT INSURANCE WORKS.

#### WHAT IS DIRECT INSURANCE?

Direct insurance is an annuity insurance the employer concludes for your benefit. It is called direct insurance because the premiums are directly paid from your pay.

#### **HOW DO I CONCLUDE THE INSURANCE?**

Your employer is required to conclude direct insurance at your request. Contact your employer to find out more. The capital accumulated through your direct insurance belongs to you – even if you change the employer later on.

#### WHAT BENEFITS WILL I RECEIVE LATER?

As of commencement of pension payout you will receive a lifetime guaranteed retirement pension. Every month-regardless of how long you will live. You can also opt for a non-recurring lump sum payment or a combination of pension and lump sum payment.

#### **HOW SECURE AND FLEXIBLE IS THIS MODEL?**

In case of insolvency of your employer your vested rights are protected. As of completion of age 62 you can determine the commencement date of pension payout yourself.

# IN 2021 YOU CAN SAVE UP TO EUR 568 MONTHLY TAX-FREE FOR YOUR RETIREMENT.

You can monthly invest **up to 8%** of the contribution assessment ceiling **(EUR 568)** tax-free in your occupational pension.

Important to know: EUR 284, that is half of EUR 568, is also exempt from social security contributions!
